

Finance North America Receives Top Funding Award - Again!

Proving once more as the industry leader in financing Mexican mortgages for U.S. and Canadian citizens, Finance North America has been awarded Top Funding Producer with GE Finance thru the first three quarters of 2008. Since its inception, Finance North America has shown that they have the experience and professional know-how to fund loans in Mexico.

"It's a difficult process which requires a thorough understanding of the complete intricacies of the loan and Mexican Title processes. This knowledge and experience has allowed us to maintain our industry presence and high level of customer satisfaction," states Russ Schreier, CEO and Founder.

Given the current market conditions and credit availability, it makes even more sense (now more than ever) for both Buyers and Agents to seriously consider financing options for their purchases of Mexican Properties.

GE Money has been an integral partner in the success of Finance North America and providing attractive programs and rates for buyers interested in purchasing their Mexican Dream Home. This relationship has also bolstered the viability of foreign investment into Mexico by providing the safeguards necessary to insure its continuing success.

Eduardo Camarena, Sales Director for GE Money congratulated Finance North America by saying, "Finance North America has shown us what a team can do with enough energy, determination, and passion."
